

Gas Turbines & Power Plant Procurement

Special Parts

Gas Turbines & Power Plants Available for Immediate Delivery

Experience

- Long-time expertise in gas turbines and power plants procurement.
- Expertise in cost-effective and time-efficient acquisition strategies
- Deep understanding of energy markets and client needs.
- Strong relationships with reliable suppliers and industry leaders.

Solutions

- Wide selection of mobile, stationary, and combined-cycle units.
- Support for utilities, manufacturing, oil & gas, and emergency power.
- Tailored procurement process for seamless equipment integration.
- Guidance from selection to secure transaction completion.

Expertise

- Ability to match the right turbine to each specific project.
- Experience with zero-hour, overhauled, and as-is units.
- Constant market research to provide competitive and updated solutions.
- Extensive knowledge of gas turbines and power generation systems.

Reliability

- Full transparency on equipment condition and sales process.
- Secure transactions managed via escrow for risk-free purchases.
- Partnerships only with vetted and reputable suppliers.
- Commitment to trust, integrity, and customer satisfaction.

Reliable Power Solutions, Ready When You Need Them

At **Special Parts Ltd**, we specialize in the supply of **gas turbines** and **power plants**, offering immediate availability to meet the dynamic demands of the energy sector. Through our extensive network of **trusted European partners**, we provide high-quality equipment in a variety of conditions, ensuring a flexible and cost-effective solution for every project.

A Comprehensive Selection of Turbines

We offer a **wide range of industrial gas turbines and power plants**, available in multiple configurations to suit diverse operational requirements:

- ✓ **Zero-hour turbines** – Brand-new, never-used units, ready for seamless integration.
- ✓ **Overhauled units** – Fully refurbished and certified for extended reliability.
- ✓ **New turbines** – Factory-new models sourced from original manufacturers.
- ✓ **As-is equipment** – Cost-effective solutions available for projects with specific customization needs.

Our inventory includes turbines from **industry-leading manufacturers** such as:

- ◆ **General Electric (GE)** – Frame 5, Frame 6, Frame 7, LM2500, LM6000, TM2500, and more.
- ◆ **Siemens** – SGT-100, SGT-200, SGT-400, SGT-600, SGT-800, V94.2, and others.
- ◆ **Rolls-Royce** – Trent, Avon, RB211, and cogeneration solutions.
- ◆ **Solar Turbines** – Mars, Titan, Taurus, Centaur, and Saturn series.
- ◆ **Kawasaki** – M1A, M7A, L30A, and complete power plant packages.
- ◆ **Mitsubishi-Hitachi** – H-25 and other heavy-duty models.
- ◆ **Pratt & Whitney FT8** – Mobile and stationary twin-pack configurations.

Each unit undergoes a **rigorous verification process** to ensure that its **stated condition is fully accurate**, providing transparency and trust to our clients.

Why Choose Special Parts Ltd?

- ◆ **Immediate Availability** – Our global supply network ensures fast access to turbines and power plants.
- ◆ **Proven Reliability** – Every piece of equipment is sourced from reputable suppliers, carefully vetted for quality.
- ◆ **Flexible Solutions** – A wide selection of units, adaptable to different industries and fuel types.
- ◆ **Guaranteed Quality** – Overhauled and refurbished units come with full documentation and service history.
- ◆ **Secure Transactions** – All purchases are managed through an **escrow process**, ensuring a smooth and risk-free experience for buyers.
- ◆ **Expert Support** – Our experienced team assists clients throughout the procurement process, from selection to logistics and commissioning.

Secure Your Equipment Today

Energy needs evolve rapidly, and having the right power solution at the right time is crucial. Whether you require a **single gas turbine, a complete power plant, or a tailored energy solution**, we are here to help.

 **Contact us today** to discuss your project and explore our current inventory.

Legal Disclaimer

Special Parts Ltd is an independent supplier of gas turbines and power plants. We do not represent, distribute, or have any official affiliation with General Electric (GE), Siemens, Rolls-Royce, Solar Turbines, Kawasaki, Mitsubishi-Hitachi, Pratt & Whitney, or any other manufacturer mentioned in this document.

All brand names, trademarks, and product names cited herein are the property of their respective owners. Their use is purely for identification and reference purposes to describe the products available in our network.

We source our equipment through verified secondary market channels, including authorized resellers, energy companies, and industrial surplus operators. All transactions comply with applicable laws and industry regulations.
